

CHIRON'S WAY

The Medicine Horse

Walking the Wheel

The medicine wheel is a symbol for the wheel of life which is forever evolving and bringing new lessons. It is believed that in the course of our lifetimes, we stand on every spoke of this great wheel many times and that in doing so, we learn to honour every direction and every lesson. Some people think of these wheels as a compass, which like the horses, guide us along our way.

In this, the third workshop of *The Art of Equus Series*, you will have an opportunity to *Walk the Wheel* with a horse as your guide and gather your teachings from the four directions. This walk will occur inside the sanctity of a round pen. Although this form has traditionally been used for "breaking" horses, we honour it now as sacred space, due to the transformational exchanges it inspires.

To commemorate your walk, you will design a personal talisman and have an opportunity to collaboratively paint or design a group wheel.
